

Perot Museum of Nature and Science Announces the Return of Its National Geographic Live Speaker Series

*The 2027 season features photographers
Jen Guyton, Robbie Shone, and Babak Tafreshi*

Dallas, TX (October 6, 2026) — The Perot Museum of Nature and Science announced today the 2027 season of the Museum’s popular National Geographic Live Speakers series. The annual event features stories and stunning photography from National Geographic Explorers sharing incredible discoveries and insights into the world’s wildlife and nature. From exploring the wildlife of the African Savana and the depths of caves to capturing the Milky Way audiences will experience awe-inspiring stories and visuals that illuminate our world. The upcoming three-part season kicks off February 24, 2027.

The African savanna is one of the most iconic ecosystems in the world, where so many remarkable animals make their home. Connect with the wonders of this special place through the lens of photographer and National Geographic Explorer [Jen Guyton](#) during *African Savanna Exposed* on **February 24, 2027**. We’ll explore the surprising lives of misunderstood hyenas, scurry alongside friendly-faced meerkats and perch at the edge of a watering hole to witness its menagerie of wildlife.

From the Milky Way to meteor showers to fireflies that emerge at dusk on neighborhood streets, our eyes open a little wider at the stunning photos and videos of National Geographic Explorer [Babak Tafreshi](#) on **May 12, 2027**, during *Earth After Dark*. Tafreshi has spent his career documenting wildlife, humanity, and the cosmos—from dark national parks to bright urban areas—with the belief that people everywhere can connect through the shared experience of simply looking up.

The season ends with [Robbie Shone](#) who is a National Geographic Explorer and internationally recognized cave photographer during *Adventures in Caving* on **September 29, 2027**. The ultimate insider's look at the last true frontiers of exploration on this planet, Shone has illuminated and photographed scenes in the world's deepest, largest, and longest cave systems. He reveals never-before-seen visuals from 7,000 feet below ground and shares the stories behind his breathtaking features for *National Geographic* magazine.

Tickets for Nat Geo Live are available for Perot Museum Founders Circle and Patron members on October 6, Perot Museum Explore members on October 7, and public tickets on October 9. Individual program tickets or series tickets are available for purchase. Single program tickets for Perot Museum members (Explore level and above) are \$39 and public tickets are \$45. The three-series tickets for Perot Museum members (Explore level and above) are \$105 and public tickets are \$125.

The 90-minute programs being at 6:30 pm and take place in the Perot Museum's *The Hogland Foundation Theater*. Each program offers a show by a renowned National Geographic Explorer telling their story live on stage, accompanied by incredible visuals. A moderated Q&A session follows each show.

National Geographic Live is operated under the global nonprofit National Geographic Society.

About National Geographic Live

National Geographic Live introduces audiences to the awe-inspiring stories of National Geographic Explorers and trailblazers through immersive live events. A dynamic array of speakers, including esteemed photographers, scientists, filmmakers and adventurers, share their firsthand experiences from the front lines of exploration. These engaging narratives, accompanied by unforgettable imagery and compelling footage, come to life on stage at performing arts centers across North America and around the world.

About the Perot Museum of Nature and Science

Located in the heart of Dallas, Texas, the Perot Museum of Nature and Science is a nonprofit educational and research organization dedicated to inspiring minds through nature and science. Visitors will find everything from dinosaurs to diamonds and space to sports, packed into five levels of hands-on discovery and adventure. Through its state-of-the-art exhibits, educational programming and community outreach, the Museum offers exciting and innovative experiences for learners of all ages.
